

EPP top opening isothermal container with extractable handle. For the transport of hot, chilled and frozen meals.

- Expanded polypropylene (EPP) isothermal container.
- Capacity: 60 litres.
- Equipped with two castors and an extractable ergonomic handle for easy handling.
- Designed for use with eutectic plates, to extend the transport time of hot, chilled and frozen food.
- It allows to properly operate in HACCP environments.
- The materials used for the manufacturing are suitable for food contact over the whole container surface.
- The unit's design allows accurate cleaning and sanitising (EC Reg. 852/2004 –HACCP-) including using a dishwasher.
- Fully recyclable at the end of the operating life.
- Guaranteed for use at temperatures ranging between -40° and $+120^{\circ}\text{C}$.
